

National Center for Immunization & Respiratory Diseases

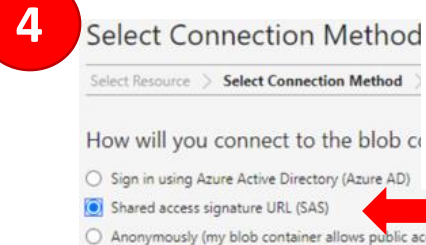

Quick Reference Card for Loading Data to CDC's NCIRD Blob Storage Using Azure Storage Explorer

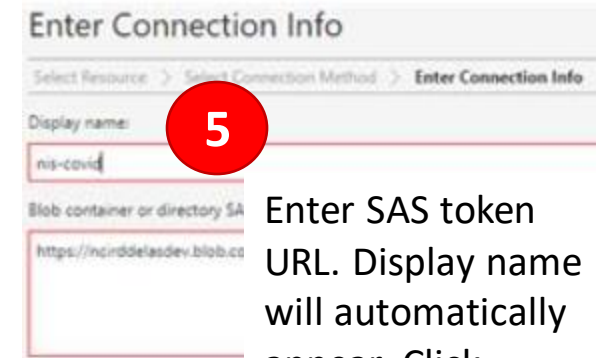

1 Request a Shared Access Signature (SAS) token from the NDLP team (NDLPsupport@cdc.gov) and provide public IP addresses and container name to which you require access.

2 Click here to install [Microsoft Azure Storage Explorer](#).

Select "ADLS Gen2 container or directory" to connect.

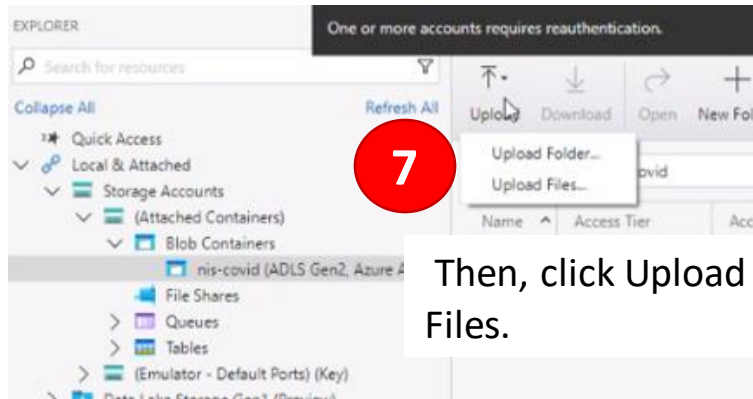

Select "Shared access signature URL (SAS)".

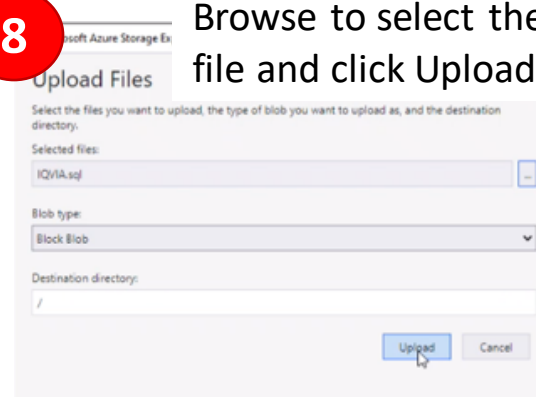

5 Enter SAS token URL. Display name will automatically appear. Click Connect.

6 Click container name.

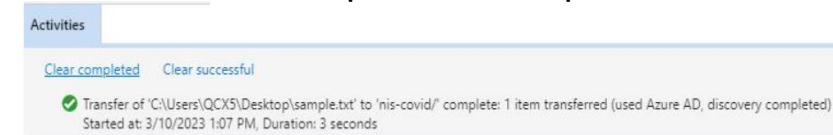

7 Then, click Upload Files.

8 Browse to select the file and click Upload.

9 Successful message will appear once upload is complete.

Request SAS token

Receive SAS token

2-3 days

The SAS token will be provided within 2-3 days from the initial request.
